

Cecil County GreenFest Exhibitors Welcome!

Fair Hill Nature Center and the Cecil County office of the University of Maryland invite you to join us for the second Cecil County GreenFest on April 24, 2010! The Exhibit Hall will be held in Ed Walls Activity Hall at Cecil County Fairgrounds in Fair Hill. We are looking for businesses and organizations that are interested in showcasing green products and services, including:

- Alternative energy for homes
- Home energy and water conservation
- Green cleaning products
- Green building and landscaping products
- Outdoor recreation and Environmental education opportunities
- Environmental Stewardship & Chesapeake Bay Watershed Connections

The Exhibit hall will be a venue for “teachable moments” where children and adults can learn about how they can easily adopt strategies for a more sustainable and healthy lifestyle. We encourage you to bring interactive materials, conduct demonstrations, and actively engage visitors in learning about your product or service!

New this year will be Environmental Midway games where visitors will try out games of skill and chance made entirely out of recycled or recyclable materials! In honor of Earth Day (April 22) we are also going to have a special interactive reading of Dr. Suess’s *The Lorax*.

The GreenFest committee is planning a comprehensive PR program to advertise this event, including our website, press releases, newspaper and magazine articles, and advertisements. We will provide you with a GreenFest poster to display in your business, a GreenFest icon and link information to include on your website. All exhibitors will also have the opportunity to have your business card printed in the event program.

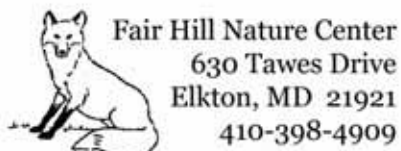

Please fill out the enclosed registration form to be included in this year’s Cecil County GreenFest. Contact Karen Aspinwall, Exhibits Coordinator, for more information.

Cecil County GreenFest 2010 Exhibitor Rates

For Profit: \$100/table

Non-Profit: \$50/table

Cecil County GreenFest will provide a table and 2 chairs. Access to electricity is available upon request. Once you have registered, you will receive an exhibitor packet with information including directions, parking, set-up and clean-up procedures, etc.
